Absolute Turnkey Introduces the Absolute Test Advantage (ATA) for OEM Customers

June 2010 – Absolute Turnkey, a leading manufacturer of the complete end-to-end EMS solution, introduces the Absolute Test Advantage (ATA) program for OEMs and the EMS marketplace.

The Absolute Test Advantage program was developed to provide customers with the ultimate in test capabilities, such as boundary scan test services, flying probe testing, in-circuit test (ICT) integrated boundary scanning with flying probe testing or ICT test services, and much more. The Absolute Test Advantage provides customers with flexibility and gets their products to market quickly. The combination of flexibility, speed and Absolute Test Advantage capabilities is what sets Absolute Turnkey apart from other EMS providers.

The Absolute Test Advantage helps customers to rapidly introduce innovative technology with the highest quality standards. The complete solution also provides speed in getting OEM customers' products to market quickly. The end-to-end solution is ideal for engineering services, prototypes, pilots, and production.

Customer market segments served by the Absolute Test Advantage include medical, semiconductor, military, communications, and many more that need the highest standards in quality and test capabilities.

###

About Absolute Turnkey

Founded in 1996, Absolute Turnkey is a leader in manufacturing the complete end-to-end EMS solution. This end-to-end EMS solution helps customers rapidly introduce innovative new technology by providing speed-to-market to their OEM customers. Speed-to-market starts with engineering services, and extends into prototypes, pilots and then into production. For more information, contact Absolute Turnkey at 408-850-7530, or sales@AbsoluteTurnkey.com.
